Initial Set Accuracy	11.76		12.24	V	At factory, all outputs in 60% rated load. The +12V output is set to between 11.88V and 12.12V.
Minimum Load		0		A	
Line Regulation		±1.0		%	Less than ±1% at rated load with ±10% changing in input voltage +12V and +24V.
